

Import Your Service Entries

Starting with eVoucher release version 6.6, attorneys can import service entries to a CJA-20/30 voucher from a file saved in comma-separated value (.csv) format. This allows attorneys using commercially available timekeeping and billing systems to create an output file from that system that could then be imported into the **Services** tab of a CJA-20/30 voucher—so attorneys don't have to manually enter each service line.

Exporting a .csv file from a timekeeping or billing system may not export to a correct format and may need to be customized to match the required format as illustrated in the sample spreadsheets provided. You can enter data directly into the sample templates manually or using copy/paste.

IMPORTANT NOTES:

- Court staff are not responsible for helping attorneys create or download .csv files.
- As a best practice, the Import Service Entries feature should be started on a new or empty CJA-20 voucher. If you have service lines already entered on a voucher, they will be overwritten with the data imported from the .csv file.

eVoucher now provides the ability to import service time entries exported from a law firm billing system and saved in Comma Separated Values (CSV) format. The CSV file must contain all required column headings and data types. Please download our [sample spreadsheet](#) for the correct column headings and service type values.

IMPORTANT: It is recommended to start with a blank voucher. Otherwise, all existing service entries on the voucher will be overwritten with the contents of the imported CSV file.

- Additional Information

Each service line entry must have data in the following columns:

- Date
- Hours
- Description
- Service Type (EXAMPLES: "16b" or "16b. Obtaining and Reviewing Records")

The following columns do not require data, but should be included in the header row:

- Doc#
- Pages

For additional information refer to the [eVoucher Online Help](#).

CSV file when opened in a text editor might look like this:

```

Importing Service Entries

Step 5

Before you can import your .csv file, you must have it created and saved on your computer. The following fields are required for import: **Date**, **Hours**, **Description**, and **Service Type**. The **Doc. #** and **Pages** fields are optional for import, but may be required by your court.

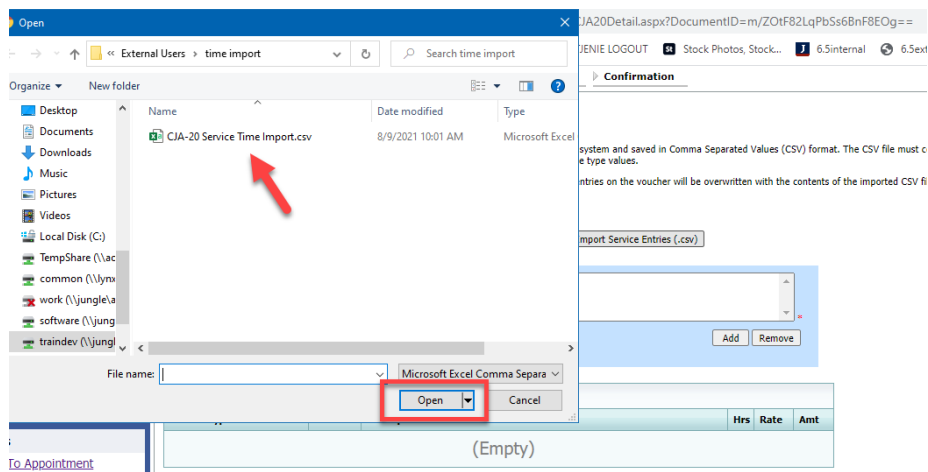

When the .csv file is ready for import, click **Import Service Entries (.csv)**.

The screenshot shows the 'Services' section of the eVoucher interface. At the top, there are navigation tabs: Basic Info, Services (selected), Expenses, Claim Status, Documents, and Confirmation. Below the tabs, the 'Services' title is followed by a paragraph explaining the CSV import functionality. An 'IMPORTANT' note states that existing entries will be overwritten. A '+ Additional Information' link is present. A red box highlights the 'Import Service Entries (.csv)' button. Below this, there is a form with fields for Date (8/6/2021), Service Type (dropdown), Description (text area), Doc.# (ECF), Pages, Hours, and a rate of \$152.00 per hour. 'Add' and 'Remove' buttons are also visible. At the bottom, there is a table header with columns: Service Type, Date, Description, Hrs, Rate, and Amt. The table content is currently empty.

Note: The service types for the CJA-30 sample spreadsheet differ slightly to match the information needed for that document type.

Step 6

Your file directory browser opens. Click the correct .csv file, and then click **Open**.

Appendix Excel File

For the .csv file to be successfully uploaded to and accepted by eVoucher, it must contain a header row. If the first row contains data rather than headings, the data in row 1 is ignored. Sample spreadsheets containing the correct column headings and service type values for each voucher type are available in the online help.

Your Excel file should look similar to the image below, containing all four mandatory column headings: Date, Hours, Description, and Service Type. The **Doc. #** and **Pages** fields can be included as header rows; however, they are not required unless data is provided.

Note: Time entries containing values greater than a single decimal place are automatically rounded up or down to the nearest tenth. For example, .125 is rounded down to .1 and .75 is rounded up to .8.
